Interview Questions Business Analyst

Produce financial and market intelligence by querying data repositories and generating periodic reports. Devise methods for identifying data patterns and trends in available information sources.

Business Savvy

- *What is the role of a business analyst in an organization?*
- *Tell me how you have identified the strengths and weaknesses of a corporate framework and translated them into opportunities and threats.*
- *How do you keep yourself updated about the latest business trends and knowledge?*
- *What do you think are the key strengths of a business analyst?*

Customer Service and Communication

- *Can you tell me about a time when you had a conflict with someone on a project and how you ended up finding a solution?*
- *What is the most effective way you have found to engage stakeholders where you have to convince people who do not work for you to provide information?*
- *Tell me a time when customer requirements shifted and significantly changed your assignment.*
- *Tell me a time you dealt with an unreasonable request.*
- *Tell me a time you delivered bad news well? Not so well?*
- *How do you decide what information is important to share?*
- *How do you disseminate this information to other people?*

Project Management and Problem Solving

- *Tell me about your typical project approach. What are the various stages of a business project?*
- *What do you mean by project deliverables?*
- *What do you understand by requirement? Can you differentiate between requirements and needs?*
- *What is business modeling?*

Technology

- *What documents does a business analyst need? Which documents have you prepared in your previous works?*
- *Can you define the diagrams most used by business analysts?*
- *What are some business intelligence tools or systems you have worked with?*
- *What are your database skills?*
